BANDAG TIRES MEET 3-PEAK MOUNTAIN SNOWFLAKE CRITERIA

Tires designed for use in severe snow conditions generally have tread patterns, structure, and materials to give superior performance in snow over tires meeting the USTMA Snow Tire Definition.

Meets 3 Peak Mountain Snow Flake (3PMSF) criteria for snow traction performance.

B760™ Drive

FUELTECH

APPLICATION
- Truckload
- Less Than Truckload

23/32NDS
Tandem
SmartWay® / CARB

A drive retread is designed for tandem-axle tractors in truckload and less-than-truckload applications, and was specifically engineered to complement the Bridgestone M760 Ecopia™ radial tire.

B799™ Drive

APPLICATION
- Severe Service

28/32NDS
Wide Base

Severe service drive tread designed to perform in mixed-service environments such as construction sites and oil fields.

BDLT™ Light Truck

APPLICATION
- Less Than Truckload
- Truckload
- Distribution & P&D

16/32NDS
Commercial | Recreational

Delivers relentless traction and responsive handling in all weather conditions without sacrificing tread wear.

BDM3™ Drive

APPLICATION
- Waste

32/32NDS
Single | Tandem

BDM3 is the next generation refuse drive tire designed to extend tread life and maintain traction over its predecessor BDM2. The BDM3 also utilizes a new stone rejection technology that will assist in extending casing life.

BDR-AS3™ Drive

APPLICATION
- Truckload
- Less Than Truckload
- Distribution & P&D

22/32NDS
Tandem

Bandag's premier solution for the demanding challenges of P&D and Last-Mile Delivery applications. Designed to extend wear life, the BDR-AS3 equips your fleet with unparalleled wear-resistance and exceptional durability.

BDR-AS™ Drive

APPLICATION
- Truckload
- Less Than Truckload
- Distribution & P&D

22/32NDS
Single | Tandem | Straight

Designed to give your trucks traction in almost any weather condition. The BDR-AS delivers the gripping power to get you to where you need to be.

BDR-W2™ Drive

APPLICATION
- Truckload
- Less Than Truckload
- Distribution & P&D

26/32NDS
Single | Tandem | Straight

Snow, sleet, ice and rain can't keep northern fleets from doing business six months out of each year. BDR-W2 is specifically designed to perform in harsh winter conditions on tandem axle drive applications in truckload and less-than-truckload service.

BDV™ All-Position

APPLICATION
- Truckload
- Less Than Truckload
- Distribution & P&D

22/32NDS
Conventional

Designed specifically for urban fleets that require long tread wear, strong wet braking traction, and solid shoulders to withstand punishing corners and curbs.

BDR-HG™ Drive

APPLICATION
- Truckload
- Less Than Truckload
- Distribution & P&D

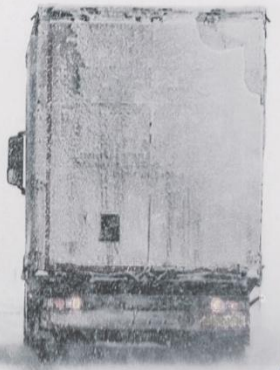

27/32NDS
Tandem

Over-the-road tandem axle drive tread holds traction as tread wears. A high grip design and long-wearing compounds deliver outstanding traction and mileage.

bandag

BANDAG TIRES MEET 3-PEAK MOUNTAIN SNOWFLAKE CRITERIA

Tires designed for use in severe snow conditions generally have tread patterns, structure, and materials to give superior performance in snow over tires meeting the USTMA Snow Tire Definition.

Meets 3 Peak Mountain Snow Flake (3PMSF) criteria for snow traction performance.

BDY2™ Drive

APPLICATION
- Severe Service

32/32NDS
Single | Tandem

Designed for enhanced traction on unimproved surfaces found in such environments as logging and oil fields.

DR 5.3™ Drive

APPLICATION
- Truckload
- Less Than Truckload
- Distribution & P&D

22/32NDS
Single | Tandem | Straight

A closed-shoulder drive tread that provides solid wear at an affordable price. With a competitive price and solid all-around performance that utilizes a proven, durable compound, the DR 5.3 is an excellent option for TL, LTL, and P&D customers who want a long-wearing drive retread product.

BDR-HT3™ Drive

APPLICATION
- Truckload
- Less Than Truckload
- Distribution & P&D

28/32NDS
Single Axle

Designed for high-torque, single-axle tractors in LTL situations, the BDR-HT3 is more durable than ever.

HT5™ Drive

FUELTECH

APPLICATION
- Truckload
- Less Than Truckload
- Distribution & P&D

25/32NDS
Single Axle
SmartWay® / CARB

SmartWay & CARB compliant, aggressive open shoulder tread designed for tough single axle applications.

MEGATREK™ Drive

APPLICATION
- Truckload
- Less Than Truckload

26/32NDS
Single | Tandem | Straight

Tread design and compound built for long lasting performance that helps you lower your tire operating costs over the life of the truck. That's MegaTrek, a deep aggressive tread design with solid shoulders that keeps your truck rolling for the long haul.

ULTRA DRIVE™

APPLICATION
- Truckload
- Less Than Truckload
- Distribution & P&D

26/32NDS
Single | Tandem | Straight

A deep, all weather tread pattern that offers reliable traction and mileage for a range of applications.
